High-end interior looks

Urban Flat Track Sliding Door System provides an upscale appearance, classic functionality and high aesthetic appeal to any home, office or work space. This versatile system combines rustic charm with high tech components for a product suitable for a variety of design styles.

### FEATURES

- Ideal for both interior and exterior use, this steel Flat Track System fits a variety of door sizes up to 8 feet wide - and can support single or double split-sliding door panels up to 400 lbs. per trolley pair.
- Clean, simple lines provide decorative appeal to the System's straightforward usage.
- Track sizes - traditionally set at 2x the door width - are available in configurations up to 16 feet long to accommodate all your interior design needs.
- Track, trolleys and system hardware components come in high gloss black or matte black finishes.
- Keep your door flush to interior walls with double U-Keepers for bracing - or choose a U-Keeper, Stay Roller & Channel combination for smooth rolling performance.
- System kits include a specified steel track length, 2 steel trolleys, 2 door stops, required mounting hardware and your choice of door bracing (double U-Keepers or the U-Keeper / Stay Roller / Channel combo).
