

# WHITE COVER AND GALVANIZED COVER TRACK

Covered Square Track from offers the ultimate in ease of installation – line it up, fasten it, and you're done.

Heavy duty track cover is pre-riveted to track for maximum strength and fast installation.

Top Mount White Covered Track features a durable, baked-on white finish that accents most building colors – no additional painting required.

Face Mount Galvanized Covered Track can be painted in the field to match any building color, or can be left unpainted if desired.

Manufactured from our standard square track, all covered square tracks are compatible with the full family of hangers and accessories, and are suitable for sliding doors weighing up to 400 lbs.

Both track styles are available in lengths from 8 to 12 feet.
