

THE TRUCK CHASSIS MAY NEED TO BE CUT TO LENGTH

#103

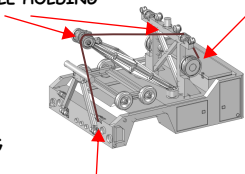

USE THREAD OR WIRE (NOT INCLUDED) TO SIMULATE THE CABLE FOR THE WINCHES. WE USED A STRAND OF HEAVY, RUST COLORED EZ-LINE FOR OUR EXAMPLE.

ONCE GLUE HAS DRIED AT THE END, STRETCH STRAND OVER PULLEY POINTS AND APPLY CA GLUE WHILE HOLDING IN PLACE.

USE CA TYPE SUPER GLUE TO GLUE THE END OF CABLE STRAND HERE FIRST.

TOW
SLING

PULL THE STRAND DOWN OVER THE TIE POINTS AND SUPER GLUE WHILE HOLDING IN PLACE.

DECALS:

WATERSLIDE DECALS ARE INCLUDED FOR THIS KIT BUT ARE NOT PRE-CUT AND MUST BE CUT AS CLOSE TO THE EDGE OF THE GRAPHIC AS POSSIBLE. SOAK 30-45 SECONDS FACE-UP, FLOATING ON THE SURFACE OF ROOM TEMP WATER.

WINDSHIELD:

A VACUUM FORMED PART IS INCLUDED TO CREATE A WINDSHIELD FOR THE TRUCK CAB. FIT THE CLEAR CANOPY PART OVER THE INCLUDED METAL MANDREL AND, USING A SHARP HOBBY KNIFE, CUT AROUND THE EDGES OF THE WINDSHIELD. USE A CANOPY GLUE TO ATTACH TO THE CAB LAST AFTER ASSEMBLY AND PAINTING IS COMPLETE.
